

ANDREA WATANABE

Burnaby, BC | 672-667-4185 | awa174@sfu.ca | linkedin.com/in/andreawatanabe | andrea-portfolio-five.vercel.app

PROFILE

Economics and Data Analysis student with experience turning large operational datasets, stakeholder needs, and recurring workflows into clear reports and practical tools. Work spans data validation, monthly trend reporting, AI-enabled process improvement, project coordination, financial reconciliation, event delivery, and digital product development. Comfortable moving from detailed records to a broader recommendation and explaining the result clearly.

CORE SKILLS

Data Analysis & Validation | Excel | Power BI | SQL | Supabase | R | Microsoft Copilot | ChatGPT | Process Improvement | KPI Reporting | Project Coordination | RACI Management | Stakeholder Communication | Financial Reconciliation | Figma | Framer | PowerPoint | English & Spanish | French A2

EXPERIENCE

Consulate General of Mexico in Vancouver

Seasonal Agricultural Worker Program Intern

Vancouver, BC

May 2026 - Present

- Maintain and analyze an Excel database covering approximately 3,000-5,000 workers and employers; prepare monthly reports on workforce inflow and trends.
- Update health, insurance, and protection-case information in the Mexican EPC system and coordinate accurate communication across workers, employers, and internal stakeholders.
- Created a Figma-based protection-case documentation resource used daily by the team and built Copilot agents that reduced recurring email-handling time by approximately 50%.

Lean In Network Vancouver

Event Coordinator

Vancouver, BC

Jun 2026 - Present

- Manage the RACI matrix, stakeholder communications, decisions, action items, dependencies, deadlines, and deliverables for monthly events.
- Research participant industries, coordinate speaker outreach, and create programming and visual materials around audience needs.

IterateUX

Event Coordinator and Project Manager

Vancouver, BC

Oct 2024 - May 2025

- Planned and delivered monthly professional-development events and developed a design challenge concept with defined deliverables, target dates, and handoff requirements.

AN Consulting & Services SAC

Accounting Assistant

Lima, Peru | Hybrid

Dec 2024 - Feb 2025

- Completed Excel-based bank reconciliations, reviewed supporting documents, investigated discrepancies, and corrected records before financial reporting.

Homura Yakiniku

Kitchen Staff

Vancouver, BC

Feb 2025 - Sep 2025

- Worked across three stations during high-volume service, adjusted priorities with the team, and completed sanitation and closing preparation.

SELECTED PROJECTS

Operational Performance Dashboard: Developing a two-page Power BI dashboard from 4,200 simulated records to analyze inflow, processing time, data completeness, regional trends, and exceptions.

Pollito World: Built an English-learning platform and Supabase database from scratch; used SQL queries to store, retrieve, and manage structured content and user data.

Monthly Financial Wrap: Cleaned spending data in Excel and designed an interactive Figma and Framer dashboard; received Best Framer User at Spark Jam 2026.

Salesforce Stock Pitch: Used Bloomberg and Capital IQ to analyze Salesforce, its industry, and market position and present an evidence-based investment thesis.

EDUCATION AND RECOGNITION

Simon Fraser University | Expected December 2027: Candidate for Bachelor of Arts in Economics, Faculty of Arts and Social Sciences, Concentration in Data Analysis.

Training: Excel for Data Analysis | Bloomberg Market Concepts | Introduction to Oracle Cloud Essentials | Introduction to Cybersecurity, Cisco | FoodSafe Level 1.

Recognition: BASS Case Competition Finalist | CFAC Stock Pitch Competitor | Spark Jam Best Framer User.

Interests: Distance running and the BMO Half Marathon, cooking, crochet, reading, coding, and flute.
